

1-23-18 email to Owners.

Hi Summit Yacht Club Owners,

We would like to thank everyone for their cooperation with parking this year at Summit Yacht Club... the situation has improved as, for the most part, residents are using parking permits and vehicles are being moved for snow removal...

There are however a few residents that are not following the "remove vehicles from parking lot for regular snow removal".

Please remember, and please pass along to your unit occupants:

All vehicles must be removed from the lot for snow removal. Between 10:00 am and 3:00 pm, when 3 inches or more of snow has accumulated in the lot, all vehicles must be removed from the lot for snow plowing. In addition, vehicles also must be removed from the lot for parking lot snow scraping and cleaning as noticed; notices may be emailed and/or posted on site the day before the clearing is scheduled. Vehicles will be towed if necessary at vehicle owner's expenses; additionally, violations are subject to fine of unit owner.

We do not send notice to remove vehicles for regular snow falls and regular snow plowing.

Notice is only sent for additional scraping and cleaning.

In addition, please also pass along the attached parking reminders to your unit occupants as a "refresher".

Thank you to all Owners for your efforts and cooperation!

Summit Yacht Club
