

## Lagoon Dumpster Protocol

Lagoon's garbage dumpsters should only be used for ordinary non-hazardous materials.

**Please do not place any large items (e.g., televisions, electronics, appliances, furniture, etc.) or any remodeling materials (e.g., carpet, wood, plumbing fixtures, cabinets, etc.) or any hazardous materials (e.g., such as paint, cleaning fluids, pesticides, CFL light bulbs etc.) in the dumpsters.**

This practice causes the dumpsters to be overloaded and the HOA incurs an additional expense for the pick up and removal of these types of items.

The **HOA will bill any owner for the added expense** should we find that this protocol is being abused. So, please refrain from placing any large items in the dumpster.

Large items can be taken to "Freecycle." Go to:  
[https://groups.freecycle.org/Summit\\_County\\_CO/posts/all](https://groups.freecycle.org/Summit_County_CO/posts/all) to get more information. Electronics and appliances can cost under \$10 to recycle at the landfill.
