

HIDEAWAY TOWNHOMES

Storm Door Replacement

If an owner wishes to replace or install a new storm door, they will have to fill out an ARC form and get approval. Here are the requirements for the storm doors:

- Color: sandstone is the only option
- Brass hardware and accent strips
- Can be full glass door or one with a kick panel (like unit 253)
- Manufacturer doesn't really matter as long as it meets the above requirements

Screen Door Replacement

If an owner wishes to replace the screen door on their sliding glass door (back of unit) they may do so without ARC approval. It must match the current color of the door frame.

Front door handle/lock replacement

The community has a bright brass lever type handle throughout. Replacements should be made with something that will have the same style/appearance as everyone else.
